

PLANT CITY POLICE DEPARTMENT

BILL MCDANIEL, CHIEF OF POLICE

MEDIA RELEASE

FOR IMMEDIATE RELEASE

Incident Date: October 10, 2011 at 7:30 p.m.

Incident Location: 1 Police Center Drive, Plant City, Florida. (Headquarters)

Release Date / Time: October 11, 2011 at 2:30 p.m.

PCPD DEPLOYS NEXT GENERATION OF POLICE MOTORCYCLE

Beginning today, members of the Plant City Police Department's Traffic Management Unit will have a lot more technology and power at their disposal. That's because the Department is deploying the new Victory Commander I Police Motorcycle. In doing so, we are the first law enforcement agency east of the Mississippi River to take advantage of the benefits of what is being hailed by Victory as the "best police motorcycle on the market."

The bikes, which were unveiled at last night's City Commission Meeting, combine the latest in police motorcycle technology, raw power, and a futuristic design that is reminiscent of the sleek symmetry and style of the art deco era.

Each motorcycle comes with a 106-cubic inch V-Twin engine that produces 97 horsepower and 119 FT/LBS of torque. That, coupled with a 6-speed, true overdrive constant mesh transmission, right hand drive with a carbon fiber reinforced belt and the highest torque numbers at the lowest RPM makes for an exceptional police motorcycle. The motorcycles also come with unique tip over protection that limits the fall/drop angle of the motorcycle and with fixed floorboards that reduce the possibility of an officer breaking/twisting a foot, ankle or knee in the event the motorcycle goes down.

The Plant City Police Department chose Victory Police Motorcycles to replace its aging Harley-Davidson fleet because they were the only Police Motorcycle provider offering a complete turn-key solution, Motorcycles delivered with lights, siren, radio, crash bars, etc., that were ready for duty on delivery day. Additionally, the bikes come with a 5-year unlimited wheel to wheel warranty and maintenance plan, which is expected to save the City thousands of dollars over the life of each bike.

State Accredited Law Enforcement Agency

Plant City Police Department

Introducing the Victory Commander I

The Next Generation in Traffic Enforcement

Engine and Drive Train

LARGEST DISPLACEMENT IN THE LAW ENFORCEMENT CLASS

- ☐ Victory Freedom 106 CI 6 speed (Largest Displacement in the Law Enforcement class)
- ☐ Single point drain/service for the quickest maintenance available
- ☐ Electronic Fuel Injection with Dual 4.5mm throttle body
- ☐ 87 hp 119 ft./lbs torque
- ☐ 18% more torque than other motorcycles of same size and 33%+ more than Harley
- ☐ Longer torque curve through mid-range rpm for aggressive passing authority
- ☐ Lowest RPM required for maximum Torque in the industry
- ☐ Carbon fiber reinforced drive belt
- ☐ Overhead Camshafts with 4 Valves per cylinder
- ☐ Oil/Air Cooled
- ☐ 5 Quart Motor Oil capacity

Frame Chassis and Suspension

TECHNOLOGY AT WORK

- ☐ 4.7 inches of rear travel
- ☐ Inverted fork technology
- ☐ 560-595 LB load capacity, largest in the Police Industry
- ☐ 1360 GVW
- ☐ 65.7 inch wheelbase
- ☐ Rake/Trail 29-5.6"
- ☐ 26.5 inch seat height (Lowest in the Police Bike arena)
- ☐ 18 inch floor boards for rider comfort
- ☐ Adjustable suspension for Riders from 5'2" to 6'8" without altering the bike
- ☐ Dual floating 300mm rotor front brakes with four piston calipers
- ☐ Single floating 300mm rotor rear brake with two piston caliper
- ☐ Wet multi-plate clutch bathing in 5 quarts of cooled oil for superior clutch performance
- ☐ 65.7 in wheel base
- ☐ Air Adjustable rear suspension

WARRANTY
5 year unlimited wheel to wheel warranty, which includes emergency lighting.

The Victory Commander is a Next Generation of Law Enforcement Motorcycles. It outperforms the Department's current Harley Davidson Motorcycles in both cost and capability.

Additional Features

- ☐ 5.8 Gallon fuel tank
 - ☐ 50 amp Charging system
 - ☐ 745 LB Dry weight
 - ☐ Adjustable shift and brake pedal controls
 - ☐ 180/60R16 Dunlop Elite 3 Rear Tire
 - ☐ 130/70R18 Dunlop Elite 3 Front Tire
 - ☐ Factory Mounted Radar Speed Detection System
 - ☐ Factory Installed Wireless Communication System
- PLAN FEATURES**
- Accounting of all services.
 - Initial 500 mile service
 - Recurring 5000 mile service: Includes replacement of the engine/transmission oil & filter and gaskets (includes price of oil and filter)
 - Spark plugs replaced as recommended per factory service manual

Lighting and Safety

- ☐ Two each LED Red/Blue lights on Top Box facing rearward
- ☐ Four, Two each side LED Red/Blue lights on side of Top Box
- ☐ Two LED Driving lights
- ☐ Luminous decalging
- ☐ Weather-Radio

MAINTENANCE PLAN

- MAINTENANCE COSTS CAPPED
- WITH THE ABILITY TO ACCURATELY FORECAST FUTURE MAINTENANCE COSTS. 3 YEAR MAINTENANCE PLAN COVERS EVERY SCHEDULED MAINTENANCE EVENT. INCLUDES MAINTENANCE TRAINING FOR CITY PERSONNEL
